

Integrated Pest Management Plan

September 2011

In compliance with Connecticut State Public Act #99-165, "An Act Concerning Notice of Pesticide Applications at Schools and Day Care Centers", Regional School District #15 hereby advises you that policies concerning the use and application of pesticides, herbicides, and insecticides are in use and available for review in the main office at each school.

Region 15 has developed three policies relating to this Public Act: 1) General Pest Control, 2) Rodent Control, and 3) Ornamental Turf Control. Each policy describes the procedures for applying pesticides and herbicides, and the brand names of the products to be used.

You have the right under the law to register your name as one to be notified in the event that an application of these controlled substances becomes necessary at your school. If an emergency condition requires immediate use of one of these substances, the school will attempt to notify you as soon as possible to advise you of the event. To receive notification of these applications, you must request registration of your name in writing and send it to the Principal of your school.
