February 16, 2012

Dear Parents/Guardians:

The administration of the Rochambeau Middle School would like to provide you with notification that initial radon-in-air testing will be conducted on Monday, February 27, 2012. According to Connecticut General Statute 10-220(d), schools are required to inspect and evaluate the indoor air quality of school buildings. This required inspection and evaluation of indoor air quality includes evaluation of radon in air and water.

EnviroMed Services, Inc. will conduct the radon testing. To test for radon in air, small canisters containing charcoal will be placed in each of the occupied rooms that are in contact with the ground. These canisters will be left in place for three school days. You will be informed of radon test results and interpretations as soon as possible. In the event that high radon levels are found, steps will be taken to correct the problem using methods suggested by the United States Environmental Protection Agency.

If you have further questions or concerns regarding radon, please feel free to contact the Pomperaug District Department of Health at (203) 264-9616, or the State of Connecticut Department of Public Health Radon Program at (860) 509-7367.

Thank you, in advance, for your cooperation.

Sincerely,

Keith McLiverty
Director of Finance and Operations
