

**POMPERAUG REGIONAL SCHOOL DISTRICT 15
NOTICE TO PARENTS, FACULTY AND STAFF**

September 2020

A formal asbestos management program has been in place at Regional School District 15 since 1986. The purpose of this program is to identify any Asbestos-Containing Building Material (ACBM) that may be in our schools and to take steps to make sure this material does not present an exposure hazard to the students, faculty, or staff.

The asbestos management program is implemented through asbestos management plans. A separate plan has been developed for each of the following facilities:

Gainfield Elementary School
Long Meadow Elementary School
Mary Johnson School / District Offices
Memorial Middle School
Middlebury Elementary School
Pomperaug Elementary School
Pomperaug High School
Rochambeau Middle School

These management plans identify the locations of the ACBM in our schools, and detail our ongoing management program. The management plans also include descriptions of previous asbestos inspections and our plans for repair or removal of damaged asbestos-containing materials.

Under our asbestos management program, the ACBM listed in the management plans is inspected every six months to assure early detection of problem areas. Furthermore, each building is completely re-inspected once every three years by a Connecticut-licensed asbestos inspector to make sure that all ACBM is properly identified and that the asbestos management plans are up to date.

An asbestos management plan is maintained in each school office. Additionally, a complete set of management plans is maintained in the Superintendent's office at 286 Whittemore Road, Middlebury, Connecticut. These plans are available for review during normal business hours.

Regional School District 15 has designated Mr. Robert Dionne as the person responsible for ensuring that the requirements of our asbestos management program are properly implemented, he can be contacted at (203) 758-2470.
